Full of helpful, real-world examples, exercises, tests, and answers. Perfect for business professionals, professors, teachers, students, and home schooling families, The Blue Book of Grammar and Punctuation is used in hundreds of universities, high schools, middle schools and corporations through the United States as well as in developing nations. Take an online quiz, get editing help, order the book, join the Q&A club, read Jane Straus's articles, or register for her monthly newsletter.

Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education--by doing it yourself. The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school--one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," when the building blocks of information are absorbed through memorization and rules; the middle school "logic stage," in which the student begins to think more analytically; and the high-school "rhetoric stage," where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child--whether full-time or as a supplement to classroom education--in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in The Well-Trained Mind to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. The Well-Trained Mind will give you the tools you'll need to teach your child with confidence and success.

This is the best and most comprehensive guide to Manhattan's private schools, including Brooklyn and Riverdale. Written by a parent who is also an expert on school admissions, this guide has been helping New York City parents choose the best private and selective public schools for their children for over 20 years. The new edition has been completely revised and expanded to include the latest tuition, and scholarships. It now lists over 75 elementary and high schools including schools for special needs children.

A new edition of a forefront home-schooling reference shares step-by-step recommendations for providing a child with an academically rigorous, comprehensive education from preschool through high school, in a guide that incorporates updated resource listings, contact information, and Internet links. 20,000 first printing.

Help children improve their writing while learning important grammar and punctuation rules. These colorful activity books make language skill practice fun!
