Joined: Jun 5, 2011 Messages: 150 Location: New York. I have a International 4200 that will not crank over with key. It just started and ran. Now it only energizes he starter relay and does ...

The development of the truck in the U.S. from 1895 to 1978 is examined year by year and brief biographies of important early innovators are included

International Harvester Trucks: The Complete History tells the complete story of the light, medium, and heavy-duty trucks, vans, and station wagons built by International Harvester during over a century of production.

This book covers the vast majority of Powerstroke Diesel engines on the road, and gives you the full story on their design. Each part of the engine is described and discussed in detail, with full-color photos of every critical component. A full and complete step-by-step engine rebuild is also included.

Second edition. Fred Crismon's timeless classic. A photographic history of International Trucks from 1902-2002. Approximately 2500 b/w photos. Considered by many to be the most authoritative work ever done on International Trucks.
