This 13 week, interactive study looks at issues many women face today and reminds them of their inherent value as daughters of the one true King. Mordecai's challenge to Esther, "Were you not born for such a time as this?" is repeated for all women throughout the ages, says Diana Hagee. Every woman has a divine destiny. But women cannot fulfill that goal unless they understand His biblical guidelines. In this interactive workbook, Diana leads women through a self-examination of their lives and their goals from God's perspective, not the secular society's. Topics such as self-esteem, diligence, attitude, goal setting and stewardship encourage women to establish a strong foundation for growth while learning to see themselves in a new light. Through scripture, thought-provoking questions and answers, prayers, practical advice and devotional ideas, women learn how valuable they are to God and how they can have an intimate relationship with Him while evaluating the standards that make them a daughter of the King.

'The Tempest' is a mesmerizing odyssey which dwells on treachery, remorse, forgiveness, reconciliation, politics, political malfeasance, true love (innocent love), father-daughter relationship and games played by people in power. It explains how fear, greed and power eclipse humanity. It is a tale of loss and restoration. It helps the reader appreciate the vagaries of life, the whims and fancies of the human mind, the frailties of human nature, and the power of patience.

One of 2021's Most Highly Anticipated New Books--Newsweek One of The 20 New Leadership Books--Adam Grant One The Best New Wellness Books Hitting Shelves In January--Shape.com A Next Big Idea Club Nominee Social Chemistry will utterly transform the way you think about "networking." Understanding the contours of your social network can dramatically enhance personal relationships, work life, and even your global impact. Are you an Expansionist, a Broker, or a Convener? The answer matters more than you think. . . . Yale professor Marissa King shows how anyone can build more meaningful and productive relationships based on insights from neuroscience, psychology, and network analytics. Conventional wisdom says it's the size of your network that matters, but social science research has proven there is more to it. King explains that the quality and structure of our relationships has the greatest impact on our personal and professional lives. As she shows, there are three basic types of networks, so readers can see the role they are already playing: Expansionist, Broker, or Convener. This network decoder enables readers to own their network style and modify it for better alignment with their life plans and values. High-quality connections in your social network strongly predict cognitive functioning, emotional resilience, and satisfaction at work. A well-structured network is likely to boost the quality of your ideas, as well as your pay. Beyond the office, social connections are the lifeblood of our health and happiness. The compiled results from dozens of previous studies found that our social relationships have an effect on our likelihood of dying prematurely--equivalent to obesity or smoking. Rich stories of Expansionists like Vernon Jordan, Brokers like Yo-Yo Ma, and Conveners like Anna Wintour, as well as personal experiences from King's own world of connections, inform this warm, engaging, revelatory investigation into some of the most consequential decisions we can make about the trajectory of our lives.
