Pipeline Planning and Construction Field Manual aims to guide engineers and technicians in the processes of planning, designing, and construction of a pipeline system, as well as to provide the necessary tools for cost estimations, specifications, and field maintenance. The text includes understandable pipeline schematics, tables, and DIY checklists. This source is a collaborative work of a team of experts with over 180 years of combined experience throughout the United States and other countries in pipeline planning and construction. Comprised of 21 chapters, the book walks readers through the steps of pipeline construction and management. The comprehensive guide that this source provides enables engineers and technicians to manage routine auditing of technical work output relative to technical input and established expectations and standards, and to assess and estimate the work, including design integrity and product requirements, from its research to completion. Design, piping, civil, mechanical, petroleum, chemical, project production and project reservoir engineers, including novices and students,

will find this book invaluable for their engineering practices. Back-of-the envelope calculations  
Checklists for maintenance operations Checklists for environmental compliance Simulations, modeling  
tools and equipment design Guide for pump and pumping station placement

A prizewinning, "riveting" (The New York Times Book Review) psychological suspense novel inspired by a true story about a couple in an insular French village whose lives are upended when a family of outsiders moves in. "Icy and chilling . . . In sharply drawn sentences, Sedira summons the beauty of a small French village, and the shocking acts of the people inside it." –Flynn Berry, Edgar Award-winning and bestselling author of *Under the Harrow* and *Northern Spy* "Disturbing and powerful . . . I loved it." –Leila Slimani, bestselling author of *The Perfect Nanny* Anna and Constant Guillot live with their two daughters in the peaceful, remote mountain village of Carmac, largely deaf to the upheavals of the outside world. Everyone in Carmac knows each other, and most of its residents look alike—until Bakary and Sylvia Langlois arrive with their three children. Wealthy and flashy, the family of five are outsiders in the small town, their impressive chalet and three expensive cars a stark contrast to the modesty of those of their neighbors. Despite their differences, the Langlois and the Guillots form an uneasy, ambiguous friendship. But when both families begin experiencing financial troubles, the underlying class and racial tensions of their relationship come to a breaking point, and the unthinkable happens. With piercing psychological insight and gripping storytelling, *People Like Them* asks: How could a seemingly "normal" person commit an atrocious crime? How could that person's loved ones ever come to terms with it afterward? And how well can you really know your own spouse?

In 1914 Vera Brittain was eighteen and, as war was declared, she was preparing to study at Oxford. Four years later her life – and the life of her whole generation – had changed in a way that was unimaginable in the tranquil pre-war era. *TESTAMENT OF YOUTH*, one of the most famous autobiographies of the First World War, is Brittain's account of how she survived the period; how she lost the man she loved; how she nursed the wounded and how she emerged into an altered world. A passionate record of a lost generation, it made Vera Brittain one of the best-loved writers of her time.

Demonstrates key elements of the Win32 operating system and explains how to use Visual Basic to customize and design applications

This book is an introductory text on fundamental aspects of combustion including thermodynamics, heat and mass transfer and chemical kinetics which are used to systematically derive the basic concepts of combustion. Apart from the fundamental aspects, many of the emerging topics in the field like microscale combustion, combustion dynamics, oxy-fuel combustion and combustion diagnostics are also covered in the book. This would help the beginners in the subject to get initiated to the state of the art topics. Key Features: Coverage of the essential aspects of combustion engineering suitable for both beginners and practicing professionals Topics like entropy generation, microscale combustion, combustion diagnostics, second law-based analysis exclusive to the title Balanced treatment of thermodynamics, transport phenomena and chemical kinetics Discussion on state of the art techniques in combustion diagnostics Illustrates combustion of gaseous, liquid and solid fuels along with emission of pollutants and greenhouse gases

From Carnegie Award-winning author Sarah Crossan comes a poignant and thought-provoking novel that explores life, sibling bonds, and forgiveness as a teen tries to reconnect with his brother on death row for a crime he may not have committed. Seventeen-year-old Joe hasn't seen his brother in ten years. Ed didn't walk out on the family, not exactly. It's something more brutal. Ed's locked up -- on death row. Now his execution date has been set, and the clock is ticking. Joe is determined to spend those last weeks with his brother, no matter what other people think . . . and no matter whether Ed committed the crime. But did he? And does it matter, in the end? This poignant, timely, heartbreaking novel asks big questions: What value do you place on life? What can you forgive? And just how do you say goodbye? Acclaim for Sarah Crossan 2016 Carnegie Award winner, One Shortlisted for the 2016 FCBG Book Award, Apple and Rain Shortlisted for the 2015 Carnegie Award, Apple and Rain Shortlisted for the 2013 Carnegie Award, *The Weight of Water*

Check out our blog or the author's profile on amazon and learn more about our coloring pages. [www.coloringbookkim.com](http://www.coloringbookkim.com) Large and fun coloring pages for kids. Universal Coloring Book for girls and boys 100 fun, easy-to-color drawings, such as: animals, sun, flowers, cars, unicorns, balloons, stars, rainbow, lollipops, ice cream and many more. The perfect coloring book for learning to color, learning about different animals, objects, fruits. Perfect for improving the coordination and concentration of young children. Thick lines and straight pictures Make it easier for little ones to color and enjoy the fun. Fun Drawings has a positive effect on the well-being of your child. By painting such pictures, children do not get bored so quickly, which gives many hours of wonderful and relaxing coloring fun. Easy learning through coloring Coloring allows children to learn 100 different things from the world around them. Who is this coloring book for? This coloring book is perfect for all children aged 1-4 who are just starting their adventure with coloring and discovering the world. Specifications: Dimensions: 8.5 x 11 inches 100 Easy And Fun Coloring Pages
