Trial begins for suspended Georgia insurance commissioner
Jim Beck, a Republican, was elected insurance and safety ... B, C and D. Beck then used an elaborate fraudulent invoicing system to produce false documents and, in his role as general manager ...

Approved Document M has been divided into two volumes. Document M1 is a new volume which covers dwellings and M2, which is a revision of the existing volume, covers buildings other than dwellings. Both are essential references for anyone undertaking building work. This new Approved Document will take effect on 1 October 2015 for use in England. The 2004 edition of Approved Document M with the 2010 and 2013 amendments will continue to apply to work started before 1 October 2015 or work subject to a building notice, full plans application or initial notice submitted before that date. This title supersedes The Building Regulations 2013: Approved Document M: Access to and use of Buildings (ISBN 9781859464878).

Coming into effect 6 April 2007, when it replaces the 2000 edition (incorporating 2002 amendments) of approved document B (TSO ISBN 011703634X). Approved document B Vol. 2 Buildings other than dwellinghouses is also available (ISBN 0117037257). With addenda (8p., February 2007) which contains two text amendments and an index to the main work

Coming into effect 6 April 2007, when it replaces the 2000 edition (incorporating 2002 amendments) of approved document B (TSO ISBN 011703634X). Approved document B Vol. 1 Dwellinghouses is also available (ISBN 0117037249)

This guide, essentially an enhanced version of Approved Document B (Volume 2), offers extra insurer-friendly technical guidance for construction professionals about how to protect commercial buildings from fire beyond the building regulations critical life safety measures. With the cost of major fires costing the British economy over £7 billion a year and high rates of consequent business failure, property protection is a key business objective for construction clients and their insurers, who will value appropriate measures that are designed in rather than added on as an afterthought. For the first time, this guide aligns guidance for property protection with the much more familiar Approved Document B. It succinctly and transparently annotates the existing document, providing a practical and easy-to-use shortcut to meeting the requirements of the Building Regulations, your clients and their insurers - all in one book. Co-published by the Fire Protection Association and supported by The RISK Authority (Risk Insight, Strategy and Control Authority) is an annually funded research scheme administered by the FPA and supported by a significant group of UK insurers that conducts research in support of the development and dissemination of best practice on the protection of property and business. Updates in the 2015 edition include:

- Fully updated to cover the 2013 revision of Approved Document B: Fire Safety (Volume 2) (2006 edition incorporating 2007, 2010 and 2013 amendments)
- Also has the most up-to-date requirements of insurance providers' requirements, which have been updated to reflect modern methods of construction, the green agenda, timber frame (appendix K of ADB), modular construction etc.
