We should plan, try something, evaluate it, amend as necessary and try again. This is

□ assess, plan, do, review □ in action. What are the possible strategies we can try?

We need to remain the adult in charge. A child with attachment disorder, especially as they get older, will often

Read Online Attachment

try to develop a pseudo-adult helper role. We should avoid colluding with this, while at the same time giving them opportunities to be independent and take responsibility.
