It is a pioneering zeal by the author on a new subject of Bach Flower Remedies which is an allied subject of homeopathy. The system of flower remedies is still in its infancy stages. In this work, description of remedies are written in a lucid language with cases treated by the author himself. The cases given are complete in every extent along with follow ups and patient's feedback to the system of medicine. We often hear that alternative medicine is superior to classical medicine, for it treats us holistically, both the physical body and the immaterial part of our nature. Although such an approach seems desirable, it is precisely this aspect that opens the door to spiritual views incompatible with Christianity. Many forms of alternative medicine speak of a divine essence we allegedly possess, of a vital force that we can manipulate, of spiritual beings that can help us, and other such views closely related to Eastern religions and New Age thought. In their desire to find healing at any price, Christians often resort to these methods without realizing the spiritual danger involved. For Christians who want to live consistently with their faith, this book is intended to raise awareness of the hidden beliefs of alternative medicine.

One of the reasons for popularity of this book as expressed by many readers is the inclusion of some selected practical case histories at the end of the book.
