The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate." "O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Readers Guide Inside

One of a series of three resource guides concerned with communication, control, and computer access for the disabled or the elderly, the book focuses on hardware and software. The guide's 13 chapters each cover products with the same primary function. Cross reference indexes allow access to listings of products by function, input/output feature, and computer model. Switches are listed separately by input/output features. Typically provided for each product are usually an illustration, the product name, vendor, size, weight, power source, connector type, cost, and a description. Part I, "Computer Adaptations," presents the following types of items: modifications for standard keyboards; alternate inputs usable with all software; input devices usable with only some software; input adapters for computers; alternate display systems usable with all software; Braille printers and tactile display components; speech synthesizers; and other software and hardware adaptations. Part II, "Application Software for Special Ed and Rehab," includes software for administration and management; assessment; education, training, and therapy; recreation; and personal tools or aids. Appendixes include a list of additional sources of information, a glossary, addresses of manufacturers listed with their products, and an alphabetical listing of all products in the 3-book series. A first and modest beginning toward a grammar of the Hualapai language, a Pai branch of the Yuman language family, this reference book is intended for use by: the Hualapai people to reaffirm the vitality of their language; the Hualapai teachers in their preparation of language materials for teaching; younger Hualapais to find the regularity and complexity of the language; and the linguists and general public to see the richness of the Hualapai language. Consisting of six parts, the reference book: reviews how a writing system was selected for the Hualapai language; explains the alphabet used and how each letter is pronounced; discusses the basic structure of Hualapai sentences with attention to noun and verb usage; explains how different types of sentences are formed and what they mean; and presents a discussion on nouns and pronouns. Other information provided includes an analysis of verbs in detail, a discussion of verbal expressions, and an explanation of sound symbolism; types and formation of useful expressions (modal, habit and repetition, and degree) are discussed and ways in which sentences can be expanded into longer and more complex ones are explained. Two appendices provide the vocabulary words and grammatical morphemes (Hualapai-English and English-Hualapai) that appear in the book. (ERB)

Air Force Handbook 10-644 Survival Evasion Resistance Escape (SERE) Operations 27 March 2017 This handbook describes the various environmental conditions affecting human survival, and describes isolated personnel (IP) activities necessary to survive during successful evasion or isolating events leading to successful recovery. It is the fundamental reference document providing guidance for any USAF service member who has the potential to become isolated; deviations require sound judgment and careful consideration. This publication provides considerations to be used in planning and execution for effective mission accomplishment of formal USAF Survival, Evasion, Resistance, and Escape (SERE) training, environmentally specific SERE training, and combat survival continuation training programs. The tactics, techniques, and procedures in this publication are recognized best practices presenting a solid foundation to assist USAF service members to maintain life and return with honor from isolating events.

The year 2007 marked the bicentenary of the Act abolishing British participation in the slave trade. Representing Enslavement and Abolition on Museums- which uniquely draws together contributions from academic commentators, museum professionals, community activists and artists who had an involvement with the bicentenary - reflects on the complexity and difficulty of museums' experiences in presenting and interpreting the histories of slavery and abolition, and places these experiences in the broader context of debates over the bicentenary's significance and the lessons to be learnt from it. The history of Britain's role in transatlantic slavery officially become part of the National Curriculum in the UK in 2009; with the bicentenary of 2007, this marks the start of increasing public engagement with what has largely been a "hidden" history. The book aims to not only critically review and assess the impact of the bicentenary, but also to identify practical issues that public historians, consultants, museum practitioners, heritage professionals and policy makers can draw upon in developing responses, both to the increasing recognition of Britain's history of African enslavement and controversial and traumatic histories more generally.
