broad, welcoming entryway, large windows and vaulted ceiling. The 787 cabin is wider than that of the airplanes it replaces, so passengers enjoy more personal space, both physically ...

Boeing: 787 By Design

boeing has done design work to reduce tail strikes, including implementing an improved elevator feel system in some airplanes. For example, the 747-100/-200/-300 has varied feel (column forces) throughout the center of gravity (cg) and weight envelope. the newer 747-400 ' s elevator feel system design provides a constant feel elevator pressure, which has reduced the potential of varied feel ...
