6.0001 Introduction to Computer Science and Programming in Python is intended for students with little or no programming experience. It aims to

Access Free Computer

provide students with an understanding of the role computation can play in solving problems and to help students, regardless of their major, feel justifiably confident of their ability to write small programs that allow them to accomplish useful goals.

development using
the high-level
programming
languages Python and
Scratch. Python is a
language with a
simple syntax, and a
powerful set of
libraries.
