The Certified in Production and Inventory Management (CPIM)
certification is essential for professionals involved in: Production
and inventory management Operations Supply chain management
Procurement Materials management Purchasing Note: CPIM is about
production and inventory management. It is NOT about logistics.
Experience in the field of logistics may not contribute much to exam
success. Candidates must pass all five exams for the following modules
in order to earn the CPIM designation: Basics of Supply Chain
Management BSCM Master Planning of Resources MPR Detailed Scheduling

and Planning DSP Execution and Control of Operations ECO Strategic Management of Resources SMR The CPIM exams have a lot of questions that ask for your "best decisions" (i.e. how you will tackle a situation in a production environment). In fact, of the questions you will encounter in the exams, a significant portion of them requires that you pick the best possible options. These best options are often based on experience and best practices not easily found in the standard exam text books. This ExamFOCUS Study Notes build a solid focus while revisiting key examination topics relevant to the first CPIM module - BSCM. Whether you are just starting to study, cramming at the last minute, or simply looking to refresh, this could prove to be a lifesaver! To succeed in the BSCM exam, you need to get yourself truly familiar with the most important information by going through sufficiently focused revision. This is where we fill the gap - you may think of our product as the unofficial supplement to the regular training class, or you may view it as a standalone module with a focus on building up your exam readiness. As an effective learning aid implemented in the format of study notes, the ExamFOCUS Study Notes package is designed to present information in an easy-to-understand, conversational format. Notes are well-written, technically accurate and completely representative of the key information covered by the exam.

A supply chain is a network of retailers, distributors, transporters, storage facilities and suppliers that participate in the sale, delivery and production of a particular product. The concept of supply chain often involves backward integration - acquiring ownership of one's supply chain (in the hope of reducing supplier power and thus reducing input costs). The four major functional components are: demand planning manufacturing planning and scheduling supply planning transportation planning The module 1 exam covers only the basics. The exam attempts to test your basic understanding towards supply chain and the various PIM (production and inventory management) concepts. Many people consider module 1 as the easiest module among

Download File PDF Cpim Bscm Certification Exam Examfocus Study Notes Review Questions 2014

the five. In module 2, 3 and 4 you will frequently see topics from module 1 (as these modules tend to overlap heavily). It is therefore highly recommended that you read the material for module 1 while preparing for the other modules.

A supply chain is a network of retailers, distributors, transporters, storage facilities and suppliers that participate in the sale, delivery and production of a particular product. The concept of supply chain often involves backward integration - acquiring ownership of one's supply chain (in the hope of reducing supplier power and thus reducing input costs). The four major functional components are: demand planning manufacturing planning and scheduling supply planning transportation planning The reconfigured module 1 BSCM exam covers the basics. The exam attempts to test your basic understanding towards supply chain and the various PIM (production and inventory management) concepts. Many people consider this exam as the easiest one. To assure exam success, you need to read and learn as much as possible. Our ExamFOCUS notes provides knowledge material to enhance your exam readiness - we help answer those tough questions that cover advanced knowledge and concepts not commonly found in the standard study material. Still, the coverage of the exam is huge. Expecting full and

Download File PDF Cpim Bscm Certification Exam Examfocus Study Notes Review Questions 2014

complete coverage of all the knowledge items from a single source is unrealistic. You are therefore advised to use this book together with other study resources for the best possible preparation!

A supply chain is a network of retailers, distributors, transporters, storage facilities and suppliers that participate in the sale, delivery and production of a particular product. The concept of supply chain often involves backward integration - acquiring ownership of one's supply chain (in the hope of reducing supplier power and thus reducing input costs). The four major functional components are: - demand planning - manufacturing planning and scheduling - supply planning - transportation planning

The Certified Supply Chain Professional (CSCP) certification is essential for professionals involved in the areas of supplier and customer relations, international trade, the use of information technology to enable the supply chain, and physical logistics. Candidates must pass a 3-module exam in order to earn the CSCP designation. The modules are: APICS Supply Chain Management Fundamentals Supply Chain Strategy, Design, and Compliance Implementation and Operations

Officially, CPIM focuses primarily on manufacturing and provides an in-depth view of materials management, master scheduling, production planning, forecasting, and quality improvement within an organization, while CSCP takes a broader

one's supply chain (in the hope of reducing supplier power and thus reducing input costs). The four major functional components are: demand planning manufacturing planning and scheduling supply planning transportation planning The Certified Supply Chain Professional (CSCP) certification is essential for professionals involved in the areas of supplier and customer relations, international trade, the use of information technology to enable the supply chain, and physical logistics. Candidates must pass a 3-module exam in order to earn the CSCP designation. The modules are: Module 1 - Supply Chain Design Module 2 - Supply Chain Planning and Execution Module 3 - Supply Chain Improvements and Best Practices There are overlapping knowledge, and it is suggested that you study these modules together. Officially, CPIM focuses primarily on manufacturing and provides an in-depth view of materials management, master scheduling, production planning, forecasting, and quality improvement within an organization, while CSCP takes a broader view to encompass all steps throughout the supply chain. In reality, the CSCP exam and the CPIM BSCM exam share a lot of common topics on SCM. This ExamFOCUS Study Notes builds a solid focus while revisiting key examination topics relevant to the CSCP exam (and also to the first CPIM module - BSCM). It helps in straight-forward fundamental knowledge establishment. The real CSCP exam questions do not appear to be as straight forward though. In fact, many questions

Download File PDF Cpim Bscm Certification Exam Examfocus Study Notes Review Questions 2014

are presented to do nothing other than to get you totally confused... Just bear in mind, you will need to do a lot of logical thinking to figure out the best possible answers, and you must be able to link multiple concepts together....
