Global Satellite System

navigation
satellite system
(GNSS) is a

general term
describing any
satellite
constellation
that provides
positioning,

Where To
Download Dal
navigation, and
timing (PNT)
services on a
global or
regional basis.
While GPS is the
most prevalent
GNSS, other
nations are
fielding, or
have fielded,
their own
systems to
provide

Where To Download Dal

complementary,
independent PNT
capability. The
main ones are
described below.
GNSS can also
refer to
augmentation
systems, but
there are too
many
international
augmentations to
list here.
