After several decades of activism, deaf men and women are now largely accepted within mainstream Japanese society. Deaf in Japan, a groundbreaking study of deaf identity, minority politics, and sign language, traces the history of the deaf community in Japan, from the establishment of the first schools for the deaf in the 1870s to the birth of deaf activist movements in the postwar period and current "culture wars" over signing and assimilation.

Sign language in Japan. Two forms of sign language are currently used in Japan: JSL and Signed Japanese. Deaf people describe JSL as their mother tongue and the language they use among themselves. Recently codified by Japanese Deaf linguists, it is different from spoken Japanese with regard to modality, grammar, word order, and worldview. Facial expressions and classifiers are used as key grammatical elements.

The JFD supports Deaf culture in Japan and works to revise laws that prevent the Deaf in Japan from participating in various professions and activities. In addition, JFD helps to incorporate Japanese Sign Language into education systems for the Deaf and supports the sign language interpreter system. The JFD is a politically independent national organization with limited financial resources. The 47 prefectural associations are organized in ways which constrain political action, but which are able
