Updated July 03, 2019. The sociology of education is a diverse and vibrant subfield that features theory and research focused on how education as a social institution is affected by and affects other social institutions and the social structure overall, and how various social forces shape the policies, practices, and outcomes of schooling . While education is typically viewed in most societies as a pathway to personal development, success, and social mobility, and as a cornerstone of ...

~~Research and Theory Behind the Sociology of Education~~

Education has come to be today as nothing more than an Instrument of livelihood. It should enable the student to take out his livelihood. Education must prepare the student for future occupational positions, the youth should be enabled to play a productive role in society. Accordingly, great emphasis has been placed on vocational training.
