great many anaesthetists are not familiar with the techniques of Low Flow, Minimal Flow and Closed System anaesthesia, some concerns have been expressed about their use. Although this alternative approach to anaesthesia may call for a reappraisal of current practice, the advantage of economies in the use of

the text is rounded off by a look at future developments in the field. Originally published in German, this updated English edition has been revised in collaboration with a well-respected UK consultant anaesthetist and should prove essential reading for all anaesthetists, both in training and in practice.
