A commemoration of the women and children involved in the tragedy of the sinking of the Titanic. The book is concerned with how they were a microcosm of society at the turn of the century when survival in life, as on this doomed ship, depended much too often on social class. Each passenger section - first, second and third class - is introduced with a brief overview on the conventions of post-Edwardian society. Included are personal interviews with survivors and their relatives; the passengers' own voices as recorded in diaries, letters and newspapers; biographies of the women and children, and male passengers or crew with whom they had contact; photographs of artefacts, where possible linked to their owners; period postcards, advertisements and photographs, together with Titanic sales brochures, tickets and baggage checks. There is also a passenger list, a chart of women and children who were saved or perished, and Titanic-related addresses.

A riveting and chillingly prescient novel of suspense and terror from the Bram Stoker award-winning author of The Cabin at the End of the World and A Head Full of Ghosts. "Gripping ... a thinking person's thriller, interspersed with moments of hilarity ... a buzz-saw of a novel." -- Los Angeles Times In a matter of weeks, Massachusetts has been overrun by an insidious rabies-like virus that is spread by saliva. But unlike rabies, the disease has a terrifyingly short incubation period of an hour or less. Those infected quickly lose their minds and are driven to bite and infect as many others as they can before they inevitably succumb. Hospitals are inundated with the sick and dying, and hysteria has taken hold. To try to limit its spread, the commonwealth is under quarantine and curfew. But society is breaking down and the government's emergency protocols are faltering. Dr. Ramola "Rams" Sherman, a soft-spoken pediatrician in her mid-thirties, receives a frantic phone call from Natalie, a friend who is eight months pregnant. Natalie's husband has been killed--viciously attacked by an infected neighbor--and in a failed attempt to save him, Natalie, too, was bitten. Natalie's only chance of survival is to get to a hospital as quickly as possible to receive a rabies vaccine. The clock is ticking for her and for her unborn child. Natalie's fight for life becomes a desperate odyssey as she and Rams make their way through a hostile and chaotic landscape filled with dangers beyond their worst nightmares--terrifying, strange, and sometimes deadly challenges that push them to the brink... "[Tremblay's] warmest and most humane book to date. Eruptions of violence are answered by moments of poignancy." -- Guardian

Based on documents discovered concealed within a simple chair for seventy years, this gripping investigation into the life of a single S.S. officer during World War Two encapsulates the tragic experience of a generation of Europeans One night at a dinner party in Florence, historian Daniel Lee was told about a remarkable discovery. An upholsterer in Amsterdam had found a bundle of swastika-covered documents inside the cushion of an armchair he was repairing. They belonged to Dr. Robert Griesinger, a lawyer from Stuttgart, who joined the S.S. and worked at the Reich's Ministry of Economics and Labor in Nazi-occupied Prague during the war. An expert in the history of the Holocaust, Lee was fascinated to know more about this man--and how his most precious documents ended up hidden inside a chair, hundreds of miles from Prague and Stuttgart. In The S.S. Officer's Armchair, Lee weaves detection with biography to tell an astonishing narrative of ambition and intimacy in the Third Reich. He uncovers Griesinger's American back-story--his father was born in New Orleans and the family had ties to the plantations and music halls of nineteenth century Louisiana. As Lee follows the footsteps of a rank and file Nazi official seventy years later, and chronicles what became of him and his family at the war's end, Griesinger's role in Nazi crimes comes into focus. When Lee stumbles on an unforeseen connection between Griesinger and the murder of his own relatives in the Holocaust, he must grapple with potent questions about blame, manipulation, and responsibility. The S.S. Officer's Armchair is an enthralling detective story and a reconsideration of daily life in the Third Reich. It provides a window into the lives of Hitler's millions of nameless followers and into the mechanisms through which ordinary people enacted history's most extraordinary atrocity.

The argument has been made that memoir reflects and augments the narcissistic tendencies of our neo-liberal age. Mediating Memory: Tracing the Limits of Memoir challenges and dismantles that assumption. Focusing on the history, theory and practice of memoir writing, editors Bunty Avision, Fiona Giles and Sue Joseph provide a thorough and cutting-edge examination of memoir through the lenses of ethics, practice and innovation. By investigating memoir across cultural boundaries, in its various guises, and tracing its limits, the editors convincingly demonstrate the plurality of ways in which memoir is helping us make sense of who we are, who we were and the influences that shape us along the way.
