An update to firmware version 02 is available for the Touit 2.8/12 and Touit 1.8/32 lenses with E-mount. With this version, the lenses also support phase detection autofocus and the fast hybrid autofocus of newer Sony E-mount cameras.

Software Touit E-Mount Firmware Update

Adding firmware update logic to a vendor-supplied driver. The existing function driver can implement the firmware update mechanism, as shown in the following diagram: Alternatively, if you want to update the function driver and the firmware update driver separately, create a second device node, on which you will install the firmware update driver.
