Martin Luther King, Jr., is widely celebrated as an American civil rights hero. Yet King's nonviolent opposition to racism, militarism, and economic injustice had deeper roots and more radical implications than is commonly appreciated, Thomas F. Jackson argues in this searching reinterpretation of King's public ministry. American social gospel, socialism, left-New Deal liberalism, Gandhian philosophy, and Popular Front internationalism. King's early leadership reached beyond southern desegregation and voting rights. As the freedom movement of the 1950s and early 1960s confronted poverty and economic reprisals, King championed trade union rights, equal job opportunities, metropolitan integration, and full employment. When the civil rights and antipoverty policies of the Johnson administration failed to deliver on the movement's goals of economic freedom for all, King demanded that the federal government guarantee jobs, income, and local power for poor people. When the Vietnam war stalled domestic liberalism, King called on the nation to abandon imperialism and become a global force for multiracial democracy and economic justice. Drawing widely on published and unpublished archival sources, Jackson explains the contexts and meanings of King's increasingly open call for "a radical redistribution of political and economic power" in American cities, the nation, and the world. The mid-1960s ghetto uprisings were in fact revolts against unemployment, powerlessness, police violence, and institutionalized racism, King argued. His final dream, a Poor People's March on Washington, aimed to mobilize Americans across racial and class lines to reverse a national cycle of urban conflict, political backlash, and policy retrenchment. King's vision of economic democracy and international human rights remains a powerful inspiration for those committed to ending racism and poverty in our time.

Health Rights Are Civil Rights tells the story of the important place of health in struggles for social change in Los Angeles in the 1960s and 1970s. Jenna M. Loyd describes how Black freedom, antiwar, welfare rights, and women's movement activists formed alliances to battle oppressive health systems and structural violence, working to establish the principle that health is a right. For a time—with President Nixon, big business, and organized labor in agreement on national health insurance—even universal health care seemed a real possibility. Health Rights Are Civil Rights documents what many Los Angeles activists recognized: that militarization was in part responsible for the inequalities in American cities. flight explores how racial conflicts transpired across a Southland landscape shaped by defense spending. While the war in Vietnam constrained social spending, the New Right gained strength by seizing on the racialized and gendered politics of urban crisis to resist urban reinvestment and social programs. Recapturing a little-known current of the era's activism, Loyd uses an intersectional approach to show why this diverse group of activists believed that democratic health care and ending war making were essential to create cities of freedom, peace, and social justice—a vision that goes unanswered still today.

The National Council for Civil Liberties (NCCL) was formed in the 1930s against a backdrop of fascism and 'popular front' movements. In this volatile political atmosphere, the aim of the NCCL was to ensure that civil liberties were a central component of political discourse. Chris Moores's new study shows how the NCCL - now Liberty - had to balance the interests of extremist allies with the desire to become a respectable force campaigning for human rights and civil liberties. From new social movements of the 1960s and 1970s to the formation of the Human Rights Act in 1998, this study traces the NCCL's development over the last eighty years. It enables us to observe shifts and continuities in forms of political mobilisation throughout the twentieth century, changes in discourse about extensions and retreats of freedoms, as well as the theoretical conceptualisation and practical protection of rights and liberties.

Throughout its history, America's policies have alternatively embraced human rights, regarded them with ambivalence, or rejected them out of hand. The essays in this volume put these shifting political winds into a larger historical perspective, from the country's very beginnings to the present day.

Champions of Civil and Human Rights in South Carolina is a five-volume anthology spanning the decades from 1930 to 1980 with oral history interviews of key activists and leaders of the civil rights movement in South Carolina. Editor Marvin Ira Lare introduces more than one hundred civil rights leaders from South Carolina who tell their own stories in their own words to reveal and chronicle a massive revolution in American society in a deeply personal and gripping way. This ambitious project of the University of South Carolina's Institute for Public Service and Policy Research was funded in part by the South Carolina Bar Foundation, the Southern Bell Corporation, and South Carolina Humanities. The five volumes serve as a collective memoir featuring original oral history interviews with significant figures in the civil rights movement of the Palmetto State, a survey of archived interviews, a variety of published and unpublished narratives, and illuminating black-and-white photographs. Every page opens doors to new historical evidence and to new insights regarding the people, places, and events of the civil and human rights struggle in South Carolina. Volume 1, Dawn of the Movement Era, 1955-1967, begins with the landmark 1954 Supreme Court ruling on *Brown v. Board of Education* in which the Court declared

In South Carolina white resistance prompted boycotts of merchants by the local NAACP and some of the earliest mass movement protests in the United States. This collection features oral histories from famous leaders U.S. Congressman James E. Clyburn, Septima Poinsette Clark, and I. DeQuincy Newman, as well as small-town citizens, pastors, and students, all sharing their experiences, motivations, hopes and fears, and how they see the struggle today.
