The Idea of Phenomenology, which consists of five lectures that Husserl delivered in Göttingen in 1907, comes from perhaps the most important period in his overall philosophical development. For although in 1912 Husserl could refer to his Logical Investigations of 1900–1901 as constituting the " breakthrough " of phenomenology, after the publication of this magisterial work Husserl entered the most profound philosophical crisis in his life, in which he felt, the astonishing achievement ...

Edmund Husserl Ideas. Volume One. (1913) Translated into English. This work is the true foundation of phenomenology as the transcendental science of pure consciousness; it becomes the foundational science of all sciences, allegedly replacing all metaphysics, or "first philosophy". Husserl struggled with and profoundly explored the Cartesian postulate of the ego, single-mindedly probing its enigmatic conundrums in an effort to give a perfectly lucid and precise account of what philosophic man is.

Edmund Husserl was the principal founder of phenomenology—and thus one of the most influential philosophers of the 20 th century. He has made important contributions to almost all areas of philosophy and anticipated central ideas of its neighbouring disciplines such as linguistics, sociology and cognitive psychology.

Edmund Husserl (Stanford Encyclopedia of Philosophy)

Edmund Husserl. As a movement and a method, as a "first philosophy," phenomenology owes its life to Edmund Husserl (1859–1938), a German-Czech (Moravian) philosopher who started out as a mathematician in the late nineteenth century and wrote a book on the philosophy of mathematics, Philosophie der Arithmetik (1891; The Philosophy of Arithmetic). His view was that there was a strict empiricism, but on being shown (by the great German logician Gottlob Frege) that such an analysis could not ...

In Husserl's hands, consciousness, a usually inscrutable topic, is woven into a rich and detailed tapestry. Consciousness is directness towards an object (be this object physical, an idea, a prior conscious act) together with a dense network of other objects towards which the directness may turn, and sets of modifications of the conscious act that the subject can freely take up and lay aside.
