Reducing fire fighter injuries and deaths requires the dedicated efforts of every fire fighter, of every fire department, and of the entire fire community working together. In most of the chapters, actual National Fire Fighter Near-Miss Reporting System cases are discussed to drive home important points about safety and the lessons learned from those real-life incidents. It is our profound hope that this textbook will contribute to the goal of reducing line-of-duty deaths by 25 percent in the next 5 years.
