You paid a lot for your car...Let Chilton help you maintain its value.

Covers all U.S. and Canadian models of Hyundai Sonata.

This unique handbook assumes no starting knowledge of car electrical and electronics systems. It begins with simple circuits and finishes with complex electronic systems that include engine management, transmission control and stability control systems. If you want to diagnose a simple alternator charging or headlight problem, this book is for you. But if you also want to fix complex electronic systems using On-Board Diagnostics, a multimeter or oscilloscope, this book also shows you how to do that. Is it best to use a series or parallel circuit when adding a horn? How do you use a multimeter to check a coolant temperature sensor against its specs? How can you add an electronic timer that will keep your headlights on as you walk to your door? When should you buy an oscilloscope – and how complex an instrument do you really need? The author has been writing about car electronic systems for over 25 years. He is also an experienced and proficient car modifier who has performed numerous electronic modifications and upgrades to his own cars, including world-first modifications. If you want a practical, hands-on book that demystifies and explains car electrical and electronic systems, this is the book for you.

Covers all U.S. and Canadian models of Toyota Camry, Avalon, Solara and Lexus ES 300/330 models.

Featuring 250 previously unknown photographs, this is the extraordinary true story of a young doctor whose photos left behind an astonishing firsthand account of life at the front of World War I. As a twenty-five-year-old medical officer and one of the first doctors to win the Military Cross, Fred Davidson took countless photographs while he served in the trenches from 1914-1915. Though he took them illegally, more than 250 of the photographs shot by Davidson and his fellow officers survived and are now shared for the first time in this harrowing, eye-catching, and poignant narrative of the Great War. In *A Doctor in the Great War*, author Andrew Davidson—the grandson of Fred—depicts the everyday lives of soldiers, both on and off duty: from the parade ground at Glasgow’s Maryhill to the brothels of Armentieres, from the band of brothers who dubbed themselves “Old Contemptibles” to the original folding Kodak and Ansco cameras they used. It is the story of the 1st Cameronians, who achieved notoriety for selling the Great War’s earliest front line photographs. And it is a deeply personal account of the pictures that have been passed down for three generations, describing the men who fought with Fred Davidson, the conditions they served in, the battles they saw, and the horrors they endured. A must-have for history and photography enthusiasts alike, this glimpse of the War to End All Wars is an unusually intimate portrait that will engulf you in the lives of soldiers and leave you humbled and amazed.

The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}
