The author, Michael Kett, has been a physical therapist, as well as a magician, for more than 20 years. His therapy background includes working with neurologic, pediatric, orthopaedic and sports medicine patients. As a magician, he performs regularly at community festivals, restaurants, and private events. Michael's book, Applied Magic, is a blending of his passion for magic and his physical therapy experience. Applied Magic is more than a beginner's magic book. Each of the 52 magic effects and activities was specifically chosen for its therapeutic potential. Specific therapeutic considerations and difficulty level are suggested for each effect. The 93 illustrations make learning easy. Also included are chapters

that discuss basic magic principles, how to teach magic, and using magic to tell a story. This book is an outstanding resource for any therapist, teacher or parent looking for innovative methods to improve gross and fine motor control, self-confidence, and social interaction skills. "Applied Magic is a creative addition to any therapist's repertoire. - Peggy Stell, pediatric physical therapist I think the idea of using magic in a classroom setting to develop social and presentation skills is fantastic. - Colleen Lundell, special education teacher "Applied Magic is a great resource for therapists looking for new and interesting ways to make therapy fun." - Melinda Buehring, physical therapist/certified Feldenkrais practitioner The magic effects are explained step by step with great illustrations. I recommend Applied Magic to anyone inquiring

THROUGH the centuries, Chinese women have had to struggle under a load of injustices—denial of education, ineligibility to sit the civil service examinations and hold official posts, female infanticide, selling of daughters, concubinage, foot binding—just to name a few. They had largely remained silent because they did not have a voice. As China descended to abject poverty in the nineteenth century, the lot of Chinese women became even worse. When Chinese women came to Malaysia (Malaya then) largely from the

nineteenth century onwards, the circumstances became different. Under British law, they were the equal of men, but social conditions took some time to evolve. For instance, daughters were left out of inheritance until quite recently, sons received preferential treatment in education and polygamy was declared illegal only in the 1930s. But Chinese women became successful entrepreneurs through their own ability, and, through education, many of them became distinguished professionals. Phoenix Rising, Pioneering Chinese Women of Malaysia is the story of Chinese women who have immigrated to this country and forged independent lives different from their lives in China. They have shown courage, resilience and determination in improving their lives. Like the phoenix, the mythological bird that symbolises the
