students who approach Lingua Latina at an accelerated pace. The Exercitia may still be used as an additional source of exercises.

This volume is the completely reset Second Edition of Jeanne Marie Neumann's A College Companion (Focus, 2008). It offers a running exposition, in English, of the Latin grammar covered in Hans H. Ørberg's Familia Romana, and includes the complete text of the Ørberg ancillaries Grammatica Latina and Latin–English Vocabulary. It also serves as a substitute for Ørberg's Latine Disco, on which it is based. As it includes no exercises, however, it is not a substitute for the Ørberg ancillary Exercitia Latina I. Though designed especially for those approaching Familia Romana at an accelerated pace, this volume will be useful to anyone seeking an explicit layout of Familia Romana's inductively-presented grammar. In addition to many revisions of the text, the Second Edition also includes new units on cultural context, tied to the narrative content of the chapter.

A sequel to her widely used A Companion to Familia Romana (now in its second edition), Jeanne Marie Neumann's A Companion to Roma Aeterna offers a running commentary, in English, of the Latin grammar covered in Hans H. Ørberg's Roma Aeterna, and includes the complete text of the Ørberg ancillaries Grammatica Latina and Latin–English Vocabulary II. It also serves as a substitute for Ørberg's Instructions, on which it is based. Though designed especially for those approaching Roma Aeterna at an accelerated pace, this volume will be useful to anyone seeking an explicit exposition of that volume's implicitly presented grammar. In addition to many revisions of the text, A Companion to Roma Aeterna also includes new

completed Part 1 are already able to read classical texts, such as Ørberg's editions of Caesar's Gallic Wars or of Plautus' Amphitryo. In Part 2, students read extensive selections from classical authors, refine their knowledge of syntax, and develop a vocabulary of over 4000 words. Upon completion of the course, students can read the most challenging classical texts with relative ease.

Selections from Aulus Gellius' Attic Nights, The Lives of Nepos, Phaedrus' Fables in verse, and some Caesar are carefully aimed to interest and challenge, but not overtax, the college student who is not yet ready for complicated readings in Latin.

The classic, single-volume introductory Latin textbook, introduced in 1956 and still the bestselling and most highly regarded textbook of its kind. Wheelock's Latin, sixth edition, revised, has all the features that have made it the best-selling single-volume beginning Latin textbook, many of them revised and expanded:

- o 40 chapters with grammatical explanations and readings based on ancient Roman authors
- o Self-tutorial exercises with an answer key for independent study
- o An extensive English-Latin/ Latin-English vocabulary section
- o A rich selection of original Latin readings — unlike other textbooks which contain primarily made-up Latin texts
- o Etymological aids

Also includes maps of the Mediterranean, Italy and the Aegean area, as well as numerous photographs illustrating aspects of classical culture, mythology, and historical and literary figures presented in the chapter readings.

- o The leading self-tutorial Latin program. Also great for college and accelerated high school courses.
- o Wheelock's Latin is the top-selling Latin reference in the US.
- o Interest and enrolments in Latin have been steadily

rising in the U.S. for the past 20 years. One-half million people are currently enrolled in Latin classes, and at least 10,000 teachers, professors and graduate assistants are teaching the language in America.

Thousands of students have found these books the ideal way to master the grammar of their chosen language. They offer a step-by-step explanation of a concept as it applies to English, a presentation of the same concept as it applies to the target language, the similarities and differences between the two languages, stressing common pitfalls for English speakers and including review exercises with an answer key.

Originally designed as a supplement to the Latin course by F. M. Wheelock, this book is well suited for use in any introductory or review course. All the stories in the book are based on actual Latin literature, with the stories simplified at first and made gradually more complex as the work progresses. Students will learn how classical Latin was really written as they become familiar with the works of the great Latin authors.
