Skills Training Manual for Treating Borderline Personality Disorder By Marsha M. Linehan

Over the years, DBT had saved the lives of countless people fighting depression and suicidal thoughts, but Linehan had never revealed that her pioneering work was inspired by her own desperate struggles as a young woman. Only when she received this question did she finally decide to tell her story. In this remarkable and inspiring memoir, Linehan describes how, when she was eighteen years old, she began an abrupt downward spiral from popular teenager to suicidal young woman. After several miserable years in a psychiatric institute, Linehan made a vow that if she could get out of emotional hell, she would try to find a way to help others get out of hell too, and to build a life worth living. She went on to put herself through night school and college, living at a YWCA and often scraping together spare change to buy food. She went on to get her PhD in psychology, specializing in behavior therapy. In the 1980s, she achieved a breakthrough when she developed Dialectical Behavioral Therapy, a therapeutic approach that combines acceptance of the self and ways to change. Linehan included mindfulness as a key component in therapy treatment, along with original and specific life-skill techniques. She says, "You can't think yourself into new ways of acting; you can only act yourself into new ways of thinking."

Filling a tremendous need, this highly practical book adapts the proven techniques of dialectical behavior therapy (DBT) to treatment of multiproblem adolescents at highest risk for suicidal behavior and self-injury. The authors are master clinicians who take the reader step by step through understanding and assessing severe emotional dysregulation in teens and implementing individual, family, and group-based interventions. Insightful guidance on everything from orientation to termination is enlivened by case illustrations and sample dialogues. Appendices feature 30 mindfulness exercises as well as lecture notes and 12 reproducible handouts for "Walking the Middle Path," a DBT skills training module for adolescents and their families. Purchasers get access to a Web page where they can download and print these handouts and several other tools from the book in a convenient 8 1/2" x 11" size. See also Rathus and Miller's DBT?
