Applies traditional economic theory to contemporary problems such as unemployment, inflation, and conflicting economic systems.

Designed for the one-term introductory economics course for non-majors, Boye's FUNDAMENTALS OF ECONOMICS, Sixth Edition, engages students with business decisions of actual, headline-making companies and discusses the economic policies of today's world leaders. The Sixth Edition has been thoroughly updated to reflect the current economic condition in the United States and the world and reflects recent events in the Obama administration, especially in regard to healthcare. The supportive pedagogical framework that guides students through each chapter includes Fundamental Questions, which open and organize the chapter by focusing on three to six key issues, and which then reappear both at point of relevance in the margins and in the end-of-chapter Summary sections; Now You Try It checkpoint questions that quiz students on important concepts, with answers provided at the back of the book; Recaps at the end of each major section to break material into manageable segments; and end-of-chapter exercises that serve as self-checks for students and as homework assignment options for instructors. A built-in study guide follows each chapter, and provides a more intensive review opportunity for students, with answers provided in an appendix. Most chapters contain four pages of study material consisting of key term match-ups, multiple-choice quizzes, and practice questions and problems. A final section of application problems gives students an opportunity to analyze and synthesize what they have learned. Available with InfoTrac Student Collections http://goengage.com/infotrac. Connect Master: Economics provides a revolutionary, digital-first approach for the principles of economics course that is ideal for a variety of course formats—traditional, online, flipped, or hybrid. Authors Carlos Asarta and Roger Butters offer the same core content covered in mainstream textbooks, but in a way that breaks free from the constraints of a traditional textbook's structure and format—empowering instructors to take advantage of new approaches in teaching methodology to revitalize their course and improve student engagement and outcomes. Instead of lengthy, narrative-driven chapters, content in Connect Master is organized into over 250 topics, each anchored by an engaging 2-4 minute professionally-produced video and supported by a host of dynamic learning resources such as interactive graphs, worked examples, helpful hints, and robust assessment content. Topics are delivered to students through the most advanced adaptive learning technology on the market, using continual assessment and artificial intelligence to personalize the experience for each individual student. The result is an immersive experience that is flexible, innovative, and aligned to how today's students learn and obtain information.

Examine microeconomic theory as a way of looking at the world as MICROECONOMICS: AN INTUITIVE APPROACH WITH CALCULUS, 2E builds on the basic economic foundation of individual behavior. Each chapter contains two sections. The A sections introduce concepts using intuition, conversational writing, everyday examples, and graphs with a focus on mathematical counterparts. The B sections then cover the same concepts with precise, accessible mathematical analyses that assume one semester of single-variable calculus. The book offers flexible topical coverage with four distinct paths: a non-game theory path through microeconomics, a path emphasizing game theory, a path emphasizing policy issues, or a path focused on business. Readers can use B sections to explore topics in greater depth. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Give your students the opportunity to think, discover, and learn together in social studies! Teamwork helps students strengthen individual retention, improve performance, and promote meaning-making in the classroom. To give adolescent minds practice in critical thinking, the authors use their considerable teaching experience to present more than 40 problem-solving activities that are ready for immediate use in the social studies classroom. This updated edition of Catch Them Thinking in Social Studies demonstrates how to use collaborative learning strategies to fully engage students in meaning-making. Cooperative Problem-Solving Activities for Social Studies, Grades 6-12 offers lessons in five areas of social studies instruction: geography, politics, economics, culture, and history. Each activity includes background information, clue cards, objectives, tasks, and worksheets. This updated edition helps teachers: • Develop students' decision-making, analysis, and communication skills • Foster teamwork and interdependent learning • Construct cooperative problem-solving activities using their own curriculum Through the activities in this book, students will work together to learn about social topics while developing important, real-world skills. Featuring current research and new activities, this hands-on resource helps teachers facilitate cooperative problem solving in social studies and provides teacher tips throughout the book.

This edition of this handbook updates and expands its review of the research, theory, issues and methodology that constitute the field of educational communications and technology. Organized into seven sectors, it profiles and integrates the following elements of this rapidly changing field.

First Published in 2008. Routledge is an imprint of Taylor & Francis, an informa company.

MSEC2011 is an integrated conference concentrating its focus upon Multimedia ,Software Engineering, Computing and Education. In the proceeding, you can learn much more knowledge about Multimedia, Software Engineering ,Computing and Education of researchers all around the world. The main role of the proceeding is to be used as an exchange pillar for researchers who are working in the mentioned field. In order to meet high standard of Springer, AISC series ,the organization committee has made their efforts to do the following things. Firstly, poor quality paper has been refused after reviewing course by anonymous referee experts. Secondly, periodically review meetings have been held around the reviewers about five times for exchanging reviewing suggestions. Finally, the conference organization had several preliminary sessions before the conference. Through efforts of different people and departments, the conference will be successful and fruitful.
