Cooling towers used with McQuay  
centrifugal chillers are normally  
selected for maximum condenser inlet  
water temperatures between 75°F and  
90°F (24°C and 32°C). Lower  
entering water temperatures are  
desirable from the standpoint of  
energy reduction, but a minimum does  
exist. For recommendations on  
optimum entering water

Centrifugal Compressor Water Chillers  
Chillers

McQuay centrifugal chillers, sizes 063 through 126, have a factory mounted water-cooled oil cooler, temperature controlled water regulating valve and solenoid valve per compressor.

Models WSC and WDC 050 chillers have refrigerant-cooled oil coolers and require no cooling water connection.
