What's often missing from such studies, however, is the insight that the concept of gender in general, and that of masculinity in particular, can be understood only in relation to individual societies, examined at specific historical and cultural moments. An application of this insight, "Medieval Masculinities" is the first full-length collection to explore the issues of men's studies and contemporary theories of gender within the context of the Middle Ages.

Medieval Masculinities: Regarding Men in the Middle Ages ...

The course examines three major themes (designated 'Course Units') taught through a series of ten seminars. These themes are: constructions of masculinity and the medieval life course (mothers and sons; young men; fathers and fatherhood); medieval men at war (the rise of the chivalric ideal; courtliness and taming the warrior; courage and cowardice); medieval men and the Church (the Herrenfrage; monastic masculinities; holiness and
