~~AP Microeconomics: Exam Study Guide Format: Example~~

The prefix micro means small, indicating that microeconomics is concerned with the study of the market system on a small scale. Microeconomics looks at the individual markets that make up the market system and is concerned with the choices made by small economic units such as individual consumers, individual firms, or individual government agencies.

Unit 5: Factor Markets 5.4: Monopsonistic Markets. The second type of factor (resource) market is called a monopsony. A monopsony is an imperfectly competitive factor market where only a single firm buys resources. Characteristics of Monoposonies. One, large firm hires all workers in a single labor market and is large enough to control the labor market.
