One hundred stereotype maps glazed with the most exquisite human prejudice, especially collected for you by Yanko Tsvetkov, author of the viral Mapping Stereotypes project. Satire and cartography rarely come in a single package but in the Atlas of Prejudice they successfully blend in a work of art that is both funny and thought-provoking. The book is based on Mapping Stereotypes, Yanko Tsvetkov's critically acclaimed project that became a viral Internet sensation in 2009. A reliable weapon against bigots of all kinds, it serves as an inexhaustible source of much needed argumentation and-occasionally-as a nice slab of paper that can be used to

In recent years functional gastrointestinal disorders have attracted much interest. These disorders are extremely common. They are characterized by symptoms and the lack of structural lesions that can be identified with clinically available routine diagnostic tests. Several functional abnormalities are now believed to play a role in the development of the symptoms. This book summarizes the

presentations at the International Falk Symposium No. 99 'Functional Dyspepsia and Irritable Bowel Syndrome: Concepts and Controversies' that took place on May 27-28, 1997. This symposium brought together clinical and basic researchers and clinicians to improve interdisciplinary communication. The meeting comprehensively covered basic and clinical aspects of these disorders, and it not only summarized the current knowledge, but also identified scientific questions that need to be addressed in the future.
