In 1772, Native Americans granted land in the Tuscarawas Valley to Moravian missionary David Zeisberger, and he established the Christian community of Schoenbrunn Village, which remained until 1777 when members were forced to relocate. Then in late 1804, John Knisely, his family, and other pioneers braved the western frontier and settled on the Tuscarawas River near the Schoenbrunn Village site. On October 23, 1804, John Knisely founded the town of New Philadelphia. He was a great philanthropist, donating land to the city for future public buildings, guaranteeing its selection as the Tuscarawas County Seat. In Schoenbrunn Village, which has been partially excavated and rebuilt as a historic site in New Philadelphia, missionaries lived in harmony with Native Americans, and so it seems fitting that New Philadelphia, through the influence of John Knisely's generosity, has maintained its image as the new "city of brotherly love." Two hundred years later, the city strives to keep Knisely's dream alive with its generous allocation of resources and commitment to those in need.

Philadelphia Neighborhoods, a compendium of historic views of the major residential sections of Philadelphia, presents a snapshot into the past when old neighborhoods were not so old and when currently established ones were as yet new construction. Through the medium of postcards, readers are invited back to an era before automobiles dominated the streets, before many city roads were paved, and when the local grocery store was not located in a mall. Using chapters divided into subsections that detail the various regions of North, South, Southwest, and West Philadelphia, as well as the "new" Northeast Philadelphia, the author chronicles the vibrant, diverse communities that have helped shape the city's rich history.

Ocean Grove in Vintage Postcards explores the history of one of America's first planned Victorian communities and one of the most successful camp meetings ever founded. It chronicles the story of this unique Jersey Shore community, using postcards that bear not only rare pictures but also fascinating messages. Thus, the book sheds light on both the place and the vacationers who came here by the tens of thousands. For more than one hundred thirty-five years, people have journeyed to Ocean Grove, seeking both the religious and the secular.

Situated strategically in the midst of such large urban centers as Washington, D.C., Baltimore, Philadelphia, and New York City, the city of Wilmington, Delaware, boasts its own unique character as well as a fascinating and continuously evolving history that has spanned more than 350 years. Officially chartered in 1832, this determined community has steadily developed a prosperous business economy--fueled in earlier times by the demands of war and more recently by a liberal tax structure--as well as a dynamic residential life for the thousands who make Wilmington home.

Rehoboth Beach is heralded as the "nation's summer capital." Located along the Atlantic Coast within 100 miles of Washington, D.C., Baltimore, and Philadelphia, Delaware's treasured resort has provided millions of tourists with unforgettable memories along its mile-long boardwalk and white, sandy beach. Vintage postcards and photographs will allow readers to experience the thrill of this renowned beach and see why many have made Rehoboth their choice for vacations, holidays, and getaways time and time again-and why some call it home year-round. This photo album features then-and-now scenes of the beach, documents the rise of other attractions surrounding the area, pays homage to storms that shook the seacoast, and showcases some of the people, festivals, hotels, and motels that make this a special place to visit.

If a picture is worth a thousand words, then the 200 historic views in Delaware in Vintage Postcards provide eloquent commentary on the First State in the early part of the twentieth century. Capturing the era between 1905 and 1925, this charming retrospective takes readers on a journey from Selbyville and Fenwick Island to Claymont, Arden, and Hockessin, and down the picturesque Main Streets of more than fifty Delaware towns. Illustrated postcards, which became popular at the turn of the last century, highlight the economic importance of land and sea, the state's varied architectural beauty, and the everyday lives of Delaware citizens.

This fascinating new history of Pennsylvania's Southern Chester County showcases more than 200 of the best vintage postcards available.

The Leni Lenape called this place gueno-sheiki-hacki-ing, meaning "beautiful or peaceful valley." Incorporated in 1850, Conshohocken's colorful history had its beginnings as Native American territory prior

to 1684, when William Penn purchased the land from the Tammany people. Soon Quakers purchased land, built homes, and opened mills. Conshohocken begins with tales and images of early history and continues with rare views that capture some of the majestic mansions built by the founding fathers, the tree-lined avenues with trolleys and horse-drawn carriages, the firehouses and train station and schools, and the many families and faces that have brought Conshohocken to life.

The early decades of the twentieth century were among the most vibrant for both New York City and the world of postcards. The 1898 consolidation of the city's five boroughs sparked a building boom that inspired a heightened awareness of the city's changing landscape. In response to this new appreciation, the postcard industry began a colorful pictorial record that was especially rich for New York.

Around Oxford features vintage postcards and photographs from Oxford and the surrounding area, including Lincoln University--the oldest African American institution of higher learning in America--and Nottingham. With the arrival of the Philadelphia-to-Baltimore railroad in 1860, Oxford began to grow and prosper. Because the area is one of the most fertile regions of Pennsylvania, it became a major agricultural center. Along with carriage and candy making, the surrounding area produced important industries, including chrome and magnesium mining, pottery making, and the quarrying of limestone.
