## Mooring Equipment Guidelines

In the years since the Mooring Equipment Guidelines, Third Edition (MEG3) was published, there has been a misunderstanding of mooring line strength terminology. One example is Minimum Breaking Load (MBL). In MEG3, OCIMF defined MBL as "the minimum breaking load of a new dry mooring line or chain as declared by the manufacturer".

## OCIMF - Oil Companies International Marine Forum - MEG4

OCIMF members have expressed concerns about the capability of tanker hose handling cranes to safely handle the lengths of hose typically associated with cargo operations at offshore facilities (Floating Production, Storage and Offloading (FPSO) and single point mooring (SPM)).

## OCIMF - Oil Companies International Marine Forum ...

The Tanker Management Self-Assessment (TMSA) guide is a tool created by OCIMF to help ship operators measure and improve their management systems. The TMSA provides a standardised framework to assess their management processes. Since February 2017, the TMSA Programme has been integrated within SIRE. MTIS.
