Pain, Pain Go Away was written to teach parents about pain in children and to help them to ask for better care for their child. Parents are important because they are experts on their child's pain and the best advocates for their own child. Children are sometimes too young, too sick or too afraid to say how much pain they have.

Pain itself is not really a condition but is most often a symptom of some underlying injury or illness. In most cases, this pain — what is known as acute pain — goes away after your injury or illness has healed. If it doesn't go away, and the pain only becomes more intense with time, you may instead be suffering from chronic pain.

Pain, Pain, Go Away is a novel by Sugaru Miaki, also known as Fafoo, author of Starting Over and Three Days of Happiness. Unlike Miaki's previous two books, Pain, Pain, Go Away is not a rewrite of any story posted to 2ch, but an entirely original one. The plot involves a young man who becomes a killer (by accident) - but his victim has the power of "postponement," temporarily delaying her death.

Pain, pain go away. Bring me back to another day where he loved me and we thought we were meant to be. I will not stop loving you; that much is true, but I will be stronger in time and not feel so blue. You will always be in my heart, even when we are apart. One day I will have that warm embrace, and tears will stop flowing down my face. Pain, pain go away.
