78bench mark at 14.135 feet above mean sea level at Sandy Hook. This elevation has been accepted by the Geological Survey and is the figure used by them on the Topographical Surveys of Long Island. The "Willets Point Datum" and the plane of mean sea level at Sandy Hook are therefore identical. In the above discussion of datum planes in use in New York City and vicinity no reference has been made to the United States Coast and Geodetic Survey Datum.
