The early 20th century in Italy was a crucial period in its history. This book surveys the important issues and topics of the period including the origins and rise of fascism, Mussolini as prime minister and dictator, the totalitarian state, foreign policy and World War II. It also examines how Italian fascism compared to other inter-war dictatorships.

A brain-friendly guide for motivating students to live, eat, and breathe science! The authors outline 20 proven brain-compatible strategies, rationales from experts to support their effectiveness, and more than 250 activities for incorporating them. Teachers will find concrete ways to engage students in science with visual, auditory, kinesthetic, and tactile experiences that maximize retention, including: Music, rhythm, rhyme, and rap Storytelling and humor Graphic organizers, semantic maps, and word webs Manipulatives, experiments, labs, and models Internet projects

Specifically written for paralegal students, *CONSTITUTIONAL LAW: PRINCIPLES AND PRACTICE*, 2nd Edition identifies and explains the concepts behind constitutional law, and connects them to everyday experiences both inside the law practice and out. Carefully edited for non-lawyers, the major cases presented show how the Supreme Court's decisions impact lawyers, lawmakers, and the general public, while breaking down complex concepts for paralegals-in-training to grasp more easily. Each chapter also contains numerous pedagogical elements including learning objectives, review and analysis questions, and vocabulary terms to build reader confidence with the material, and demonstrate the ways paralegals perform in the workplace. Focusing on practical application, *CONSTITUTIONAL LAW: PRINCIPLES AND PRACTICE*, 2nd Edition offers multiple hands-on opportunities to help students excel. Helpful appendices include samples of commonly used legal documents, while the readings are packed with hypothetical cases, ethical dilemmas, and end-of-chapter assignments for practicing analytical skills. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

*From College to Career* enables readers to explore career choices and make informed career decisions. The book guides readers through critical thinking and reflection on career choices, and the activities in each chapter provide opportunities to personalize the learning experience. Much of the content information focuses on what readers need to know to help them make decisions about their major and career, including a comparison of the three main career tracks--policing, courts, and corrections--and the role of politics in criminal justice professions, ethical choices, and the need for networking. Features of *From College to Career* include: Career information, resume building exercises, interactive worksheets, and assignments. An overview of how criminal justice professions fit into the overall government structure and political culture. Ethics exercises which ask readers to apply what they have learned about ethical standards in general, critically analyze a situation, and decide what they would do.

Hames and Ekern's *Introduction to Law*, 4/e will teach students the basic legal concepts related to substantive and procedural law, introduces them to cases, statutes, and the constitution, and develops their legal vocabulary and analytical skills. A new chapter on constitutional law, expanded coverage of employment and environmental law, and information on technology makes this an excellent resource for any *Introduction to Law* course for all disciplines of study including pre-law, legal studies, and business programs. Using this text, your students will learn how to develop their own critical-thinking skills, read high-interest cases, expand their legal vocabulary and discuss case law and issues impacting today's legal system.
