Some of the smartest, most successful people in the country didn't finish college. None of them learned their most critical skills at an institution of higher education. And like them, most of what you'll need to learn to be successful you'll have to learn on your own, outside of school. Michael Ellsberg set out to fill in the missing pieces by interviewing a wide range of millionaires and billionaires who don't have college degrees, including fashion magnate Russell Simmons and Facebook founding president Sean Parker. This book is your guide to developing practical success skills in the real world: how to find great mentors, build a world-class network, make your work meaningful (and your meaning work), build the brand of you, and more. Learning these skills is a necessary addition to any education, whether you're a high school dropout or graduate of Harvard Law School.

The case for investing in your own career before anything else Michael Ellsberg and Bryan Franklin think you've been fed a lie: that if you save for decades and invest in 401(k)s, IRAs, and a home, these investments will grow steadily over decades, allowing twenty to thirty years of secure, peaceful retirement. This might have been true at

some point in the last century, but it is not true any longer. If you want to get ahead and enjoy a life of prosperity, the authors argue that you must invest in the most powerful source of wealth you'll ever know: your own earning power. Ellsberg and Franklin reveal how investing in yourself in various ways can guarantee a return much higher than the stock market or real estate. Boosting your skills, leadership, persuasion ability, and your network enriches the quality and meaning of your life at the same time that it enriches your wallet. Why wouldn't you bet on yourself?

Do you need college in order to be taken seriously and earn a real living? Conventional wisdom says yes. But true success relies upon self-knowledge and entrepreneurship: two qualities that you can obtain effectively and inexpensively without traditional college. Better Than College provides the step-by-step guidance and inspiration necessary to design your own higher education. This book teaches you how to find community, stay on track, and get hired or start your own venture, all without a four-year degree. Curious college students will learn to think clearly about their motivations, plan a gap year, or navigate life after school. And Better Than College will show parents how self-directed learning can lead to a lifetime of achievement-no expensive institution required.

This business classic features straight-talking advice you'll never hear in school. Featuring a new foreword by Ariel Emanuel and Patrick Whitesell Mark H. McCormack, one of the most successful entrepreneurs in American business, is widely credited as the founder of the modern-day sports marketing industry. On a handshake with Arnold Palmer and less than a thousand dollars, he started International Management Group and, over a four-decade period, built the company into a multimillion-dollar enterprise with offices in more than forty countries. To this day, McCormack's business classic remains a must-read for executives and managers at every level. Relating his proven method of "applied people sense" in key chapters on sales, negotiation, reading others and yourself, and executive time management, McCormack presents powerful real-world guidance on • the secret life of a deal • management philosophies that don't work (and one that does) • the key to running a meeting—and how to attend one • the positive use of negative reinforcement • proven ways to observe aggressively and take the edge • and much more Praise for What They Don't Teach You at Harvard Business School "Incisive, intelligent, and witty, What They Don't Teach You at Harvard Business School is a sure winner—like the author himself. Reading it has taught me a lot."—Rupert Murdoch, executive chairman, News Corp, chairman and CEO,

Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and

penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds

in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich – and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity – compound interest – is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

Adopt the investment strategy that turned a school teacher into a millionaire Millionaire Teacher shows you how to achieve financial independence through smart investing – without being a financial wizard. Author Andrew Hallam was a high school English teacher. He became a debt-free millionaire by following a few simple rules. In this book, he teaches you the financial fundamentals you need to follow in his tracks. You can spend just an hour per year on your investments, never think about the stock market's direction – and still beat most professional investors. It's not about get-rich-quick schemes or trendy investment products peddled by an ever-widening,

self-serving industry; it's about your money and your future. This new second edition features updated discussion on passive investing, studies on dollar cost averaging versus lump sum investing, and a detailed segment on RoboAdvisors for Americans, Canadians, Australians, Singaporeans and British investors. Financial literacy is rarely taught in schools. Were you shortchanged by your education system? This book is your solution, teaching you the ABCs of finance to help you build wealth. Gain the financial literacy to make smart investment decisions Learn why you should invest in index funds Find out how to find the right kind of financial advisor Avoid scams and flash-in-the-pan trends Millionaire Teacher shows how to build a strong financial future today.

A compelling look at a new class of the affluent - the middle-class millionaires - whose attitudes and values are influencing and reshaping American life In this groundbreaking book, Russ Alan Prince and Lewis Schiff examine the far-reaching impact of the middle class millionaires-people who enjoy a net worth ranging from one million to ten million dollars and have earned rather than inherited their wealth. Comprising 8.4 million households and growing in number, the attitudes and behaviors of these working rich are exerting a powerful influence over our society. So who are these people? They believe in

the benefits of hard work. They believe in investing in themselves, and in self improvement. They are more likely to focus on drawing financial gain from their work, and less inclined to be discouraged by failure. And they don't spend money on the extravagances indulged in by the very rich; instead, they wield their affluence according to middle-class values and ideals. From home security systems to health care, technology to travel, their spending choices are affecting us all - from the products we buy, to the communities in which we live, to the aspirations and values of the broader middle class and American population as a whole. In the bestselling tradition of *Bobos in Paradise* and *The Millionaire Next Door*, *THE MIDDLE-CLASS MILLIONAIRE* is a captivating narrative - part sociology, and part aspirational journey into the lives, attitudes, and values of the middle-class millionaires. Based on extensive surveys and research into more than 3,600 middle-class millionaire households around the country, this book will reshape our understanding of what it takes to be successful - and how all of us can achieve similar success.

It's no secret that college doesn't prepare students for the real world. Student loan debt recently eclipsed credit card debt for the first time in history and now tops one trillion dollars. And the throngs of unemployed graduates chasing the same jobs makes us wonder

whether there's a better way to "make it" in today's marketplace. There is—and Dale Stephens is proof of that. In *Hacking Your Education*, Stephens speaks to a new culture of "hackademics" who think college diplomas are antiquated. Stephens shows how he and dozens of others have hacked their education, and how you can, too. You don't need to be a genius or especially motivated to succeed outside school. The real requirements are much simpler: curiosity, confidence, and grit. *Hacking Your Education* offers valuable advice to current students as well as those who decided to skip college. Stephens teaches you to create opportunities for yourself and design your curriculum—inside or outside the classroom. Whether your dream is to travel the world, build a startup, or climb the corporate ladder, Stephens proves you can do it now, rather than waiting for life to start after "graduation" day.
