This document explains the evidence base for falls prevention exercise and the benefits which can be expected, for older people and for health and care services, if programmes are put in place which follow the evidence. It includes case studies of current services which are delivering a reduction in falls through such programmes.

Falls prevention. Determining an evidence-based strategy for risk assessment and falls prevention is also not helped by the current level of scientific evidence with regard to the effectiveness of preventive interventions. Oliver et al (1997) and Stetler et al (1999) raise questions about the evidence base for the falls-prevention interventions.

There's also evidence that taking part in regular tai chi sessions can reduce the risk of falls. Tai chi is a Chinese martial art that places particular emphasis on movement, balance and co-ordination. Unlike other martial arts, tai chi does not involve physical contact or rapid physical movements, making it an ideal activity for older people.

Before the Fall: Evidence for a Golden Age. By Steve Taylor. If you asked them what life was like in prehistoric times, most people would conjure up an image like the famous opening scenes of 2001: Space Odyssey – groups of hairy savages grunting and jumping around, foaming at the mouth with aggression as they bash each over the heads with sticks. We take it for granted that life was much harder then, a battle to survive, with everyone competing to find food, struggling against the ...

Genetic discordance of the two SARS-CoV-2 specimens was greater than could be accounted for by short-term in vivo evolution. These findings suggest that the patient was infected by SARS-CoV-2 on two separate occasions by a genetically distinct virus. Thus, previous exposure to SARS-CoV-2 might not guarantee total immunity in all cases. All individuals, whether previously diagnosed with COVID ...
