He is well-known as a very strong attacking player who likes to play the Sicilian Dragon, a double-edged opening if ever there was one, and the Dutch, which he has played for his entire career. He points out that the Dutch (1...f5) is a natural choice vs 1. d4 for those who like to meet 1. e4 with the Sicilian as the pawn structures mirror one another and they have some ideas in common.

Grandmaster Simon Williams has played the Classical Dutch for over twenty years. It remains his favourite opening and has featured in some of his greatest individual results, including a win over World Championship finalist Boris Gelfand. In this book, Williams examines the Classical Dutch in great depth. He also presents a complete repertoire for Black with the Dutch Defence, which is based on his own repertoire he has used successfully at grandmaster level for many years. As well as presenting the latest theory and revealing his new ideas in the key lines, Williams highlights the main tactical and strategic ideas for both sides and covers important issues such as move orders. Each chapter includes a series of tests at the end, so that readers are able to assess how well they have understood the main concepts. This book tells you everything you need to know about successfully playing the Classical Dutch. A Dutch repertoire against 1 d4, 1 c4 and 1 Nf3. Written by a world-renowned Classical Dutch expert. Packed with new ideas and critical analysis.

This book analyses a dynamic opening system for Black.

The Classical Dutch is an ambitious and underrated defence to queen's pawn openings. With his first few moves Black creates an asymmetrical pawn structure which unbalances the position from a very early stage, allowing both white and black players to fight for the initiative. Now, for the first time in recent history, International Master Jan Pinski delves into the secrets of the Classical Dutch, studying both the positional motives and tactical nuances for both sides. He deals with the theoretical main lines as well as the crafty side variations, updating the reader on all the new important wrinkles. \*Written by an openings expert \*Up-to-date coverage of a dynamic opening \*Full explanations on all the crucial tactical and positional themes

Grandmaster Simon Williams was taught the English Opening at the age of six and 1 c4 was his weapon of choice until long after he became an International Master. For this new work, he teamed up with acclaimed theoretician International Master Richard Palliser to explore his old favourite. 1 c4 remains an excellent choice for the club and tournament player. This book focuses on the set-up popularised by the sixth world champion, Mikhail Botvinnik, the so-called Botvinnik formation with 2 Nc3, 3 g3, 4 Bg2, 5 e4 and 6 Nge2. This system is compact but still aggressive and rewards an understanding of plans and strategies rather than rote memorisation of moves. In Opening Repertoire: The Iron English leading chess authors Simon Williams and Richard Palliser guide the reader through the complexities of this dynamic variation and carves out a repertoire for White. They examine all aspects of this highly complex opening

and provide the reader with well-researched, fresh, and innovative analysis. Each annotated game has valuable lessons on how to play the opening and contains instructive commentary on typical middlegame plans. \* A dynamic and easy-to-play repertoire for White \* Complete coverage featuring several new ideas \* Take your opponents out of their comfort zone!

It's not easy finding a good opening to play against 1 e4, especially if you don't have endless time available to study the latest theoretical developments. If you choose fashionable openings, it's often a necessity to keep pace with modern theory if you want to succeed with Black. This book provides a solution. Neil McDonald advocates his favourite opening - the very popular French Defence - but chooses a repertoire for Black that requires only the minimum amount of move memorization. The lines he selects are very easy to learn and play - perfect for those who are unwilling to be slaves to opening theory. But there's also something here for more experienced players, as McDonald goes on to offer a second repertoire based on counter-attacking lines against 3 Nc3 and 3 Nd2. \*An easy-to-learn defence against 1 e4\*Provides solutions to all of White's options\*Written by a world-renowned expert on the French\*Ideal for improvers, club players and tournament players English Grandmaster Neil McDonald is an experienced and successful player on the international chess circuit. He is a respected chess coach, who has trained many of the UK's strongest junior players. McDonald is also a talented chess writer and has many outstanding works to his name.

A chess book on the openings, aimed at a club audience.

Grandmaster David Smerdon gives the Scandinavian a welcome twist by using it as an all-out attacking weapon. The repertoire he presents is one he has successfully employed at grandmaster level over many years, and the backbone is provided by the razor-sharp Portuguese and Icelandic gambits.

In this book, one of the most enthusiastic adherents of the Classical Dutch explains the workings of his favorite opening, and provides Black with a complete repertoire against 1 d4. Few opponents will be ready to take on the Classical Dutch, since it has received little attention in chess literature in recent decades. Simon Williams shows how Black can obtain counter-chances against each of White's main options. He also provides recommendations against all of White's alternative approaches against the Dutch, including a variety of sharp possibilities after 1 d4 f5.
