The People that Time Forgot Edgar Rice Burroughs - Bowen Tyler is still missing after being marooned on the Antarctic island of Caprona. Tom Billings plans a group expedition to find Bowen and his remaining crew. When his plane is attacked by a gang of creatures, he crashes into an unspecified area. He encounters several inhabitants, both friend and foe, while seeking guidance on his journey. With the remaining team en route, Tom must fend for himself in this fantastical world of mystical beasts. The People That Time Forgot is part of the Caspak trilogy, which centers the occupants of Caprona island. Its a prehistoric fantasy with elements of romance and adventure. The story is driven by the unwavering commitment of one man and his need to uncover the truth. With an eye-catching new cover, and professionally typeset manuscript, this edition of The People That Time Forgot is both modern and readable.

Book 2

The Land That Time Forgot opens with the discovery near Greenland of a floating thermos flask containing a manuscript by castaway Tyler Bowen, Jr. The document recounts a series of adventures that starts with a sea battle against a German U-boat and ends on a mysterious island populated by hostile prehistoric animals and people. The second part of the book, "The People That Time Forgot," continues the story with the tale of Tom Billings, who has been sent on a mission to rescue Bowen after his manuscript was discovered. He flies solo over the mountainous cliffs that encircle the island and is attacked by a monstrous flying reptile, forcing him to crash-land. Billings then attempts to make his way on foot back to the rest of his party while contending with dangerous inhabitants from different stages of human development. The final installment of the story, "Out of Time's Abyss," reveals what happened to Bradley, a crew member who was sent on a scouting expedition earlier in the story and was never heard from again. This trilogy of short novels was originally published serially in 1918 in Blue Book Magazine. In 1924 they were published in a single volume by A. C. McClurg. The Burroughs fan community seems to fall into two camps about whether the story comprises three separate novellas, or whether it's a single novel divided into three parts. This production follows the 1924 edition in combining the three into a single novel. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Caprona (also known as Caspak) is a fictitious island in the literary universe of Edgar Rice Burroughs's Caspak trilogy, including The Land That Time Forgot, The People That Time Forgot, and Out of Time's Abyss. A masterpiece of science fiction adventure!

Book 2

On Caprona, a continent lost from the map of Earth, where Time had stopped and all the primeval creatures of long-gone ages still prowled, Bowen Tyler was lost. To find Tyler, Thomas Billings travelled across the world to Caprona, where even stranger mysteries awaited him, and a barbaric civilization hid, trapped between the impassable jungle on one side and an unknown menace on the other...

Out of Time's Abyss is a science fantasy novel by American writer Edgar Rice Burroughs, the third of his Caspak trilogy.

The People That Time Forgot is a direct sequel to The Land That Time Forgot and continues the lost world saga begun in the earlier story. Burroughs continues the revelation of his lost world's unique biological system, only hinted at in the previous installment, in which the slow progress of evolution in the world outside is recapitulated as a matter of individual metamorphosis. This system forms a thematic element serving to unite the three otherwise rather loosely linked Caspak stories.

Before he emerged as one of the world's most beloved action-adventure writers and the creator of enduring characters such as Tarzan, Edgar Rice Burroughs struggled academically and had extreme difficulties in the process of trying to find his path in life. The Efficiency Expert is a thinly fictionalized account of Burroughs' young adulthood and his wayward -- and highly circuitous -- early career.

"This volume assembles all three of Edgar Rice Burroughs' science-fantasy "lost world" novels, "The Land That Time Forgot," "The People That Time Forgot," and "Out of Time's Abyss." Starting out as a harrowing wartime sea adventure, Burroughs's story ultimately develops into a lost world story reminiscent of such novels as Sir Arthur Conan Doyle's "The Lost World" (1912) and Jules Verne's "The Mysterious Island" (1874) and "Journey to the Center of the Earth" (1864). Burroughs adds his own twist by postulating a unique biological system for his lost world, in which the slow progress of evolution in the world outside is recapitulated as a matter of individual metamorphosis. This system is only hinted at in "The Land That Time Forgot" and is presented as a mystery whose explication is gradually worked out over the course of the next two novels. It forms a thematic element serving to unite three otherwise rather loosely linked stories." -- amazon.de
