The Phoney Victory: The World War II Illusion is a book by Peter Hitchens. It was published in August 2018 by I.B. Tauris. The book addresses what Hitchens regards as the national myth of the Second World War, which he believes dealt long-term damage to Britain and its position in the world. He argues that while the allies were, indeed, fighting a radical evil, they sometimes used immoral methods, such as the allies's carpet bombing of German civilians.

A new book, The Phoney Victory, written by Peter Hitchens, presents the idea that the decision of the British government to declare war against Germany in September 1939 was the wrong one, at least when it comes to its timing. Hitchens's analysis is strengthened by the idea that the 'victory' over Germany in 1945 left the country in a state of economic bankruptcy.

In Hitchens's world, Britain needlessly surrendered its sovereignty to other powers – the Americans, the Russians, the Europeans. All of this was “humiliating” for the British, “as cession of sovereignty always is”.

Britain lost rather than won the war. Once that's recognised everything else falls into place. So yes a phoney victory because we lost the war and the terrible thing is everyone including Churchill knew we would lose, but as a warmonger he didn't really care.
