How Technology Is Augmenting Traditional Theater
How has technology changed theatre? Here are four ways technology has changed the onstage performance landscape: 1) Technology and Music. Without a doubt, a musical theatre performer must be aware of the altered responsibilities musicians have with the inclusion of digital tech. The most noteworthy change is the use of tracked or pre-recorded music in live performance settings, a concept that is vehemently debated, and usually abhorred by musicians.

Theatre, Performance and Technology: The Development and ...

Technology Opens the Door for Better Sounds Faster. In many ways, the internet has lowered barriers for sound designers to find the exact music and noises they need to move a production. In an interview with Music Theatre Today, Kai Harada explains exactly how technology has changed sound design in the past 10 years. In the old days, if a director wanted a new sound effect it would take a whole day — Harada had to call studio libraries and wait for them to mail a few CDs to review.

How Technology is Changing Theater Design | Ozobot

They can't use traditional theatre techniques (like using fabric to show waves). The actors can say their lines, but they can't use action to create their visuals – it has to be shown through technology. The aim of the exercise is to go to the extreme on both sides of the coin: all technology or no technology. Students may get frustrated by what they can or cannot do and that's part of the exercise.

Theatre and Technology

TECHNOLOGY TAKES THE STAGE New tools are revolutionizing performing arts education. There is much about the study and performance of music, theatre, and dance in the new millennium that hasn't changed in centuries: talent, practice, knowledge, inspiration, and passion are still essential ingredients that drive the performing arts.
