Tree Houses: Fairy-Tale Castles in the Air by Philip ...

Tree houses are a refuge in more sense than one. They are a way to get away from the everyday world and its problems, but also, for some, a way to live a childhood fantasy. The publisher gave my book the subtitle "Fairy Tale Castles in the Air," which may sum up the appeal of tree houses both to adults and to children.

Tree Houses: Fairy Tale Castles in the Air | AnOther

Tree Houses: Fairy Tale Castles in the Air The idea of climbing a tree for shelter, or just to see the earth from another perspective, is surely as old as humanity. Tree houses are chronicled in ancient civilizations and their lore crosses through the history of every part of the world where trees grow.

Tree Houses Fairy Tale Castles In The Air

Across small cottages and lavish villas, beach houses and forest refuges, discover the world's finest crop of new homes. This cutting-edge global digest features such talents as Shigeru Ban, MVRDV, and Marcio Kogan alongside up-and-coming names like Aires Mateus, Xu Fu-Min, Vo Trong Nghia, Desai Chia, and Shunri Nishizawa. Here, there are homes in Australia and New Zealand, from China and Vietnam, in the United States and Mexico, and on to less expected places like Ecuador and Costa Rica. The result is a sweeping survey of the contemporary house and a revelation that homes across the globe may have more in common than expected. Among guava trees and abandoned forts in Western India is a sanctuary designed for and by Kamal Malik of Malik Architecture. The House of Three Streams is a sprawling spectacle with high ceilings, verandas, and pavilions, perched atop a ridge overlooking two ravines. A medley of steel, glass, wood, and stone, the house weaves along the contour of the landscape, almost as an extension of the forest. Encina House by Aranguren & Gallegos, an elegant, sloping structure reminiscent of a gazebo, similarly inhabits its surrounding vista. Enscanted in a pine forest north of Madrid, the lower level is embedded in rock and connected to the upper by a natural stone wall. Shinichi Ogawa's Seaside House is an immaculate two-story minimalist marvel in Kanagawa that overlooks the Pacific. Its living area spills onto a cantilevered terrace and infinity pool, almost dissolving into the ocean as one seamless entity. In Vietnam, Shunri Nishizawa's House in Chau Doc exudes tropical sophistication with exposed timber beams, woven bamboo, plants, concrete panels, and inner balconies and terraces. Its corrugated iron panels act as moveable walls and shutters, ushering in views of surrounding rice fields. These homes—along with more than 50 others—are each remarkably distinct in design. They all, however, toe the line between inside and outside, each one symbiotic with its surroundings.

The #1 bestselling chapter book series of all time celebrates 25 years with new covers and a new, easy-to-use numbering system! Getting the facts behind the fiction has never looked better. Track the facts with Jack and Annie!! When Jack and Annie got back from their adventure in Magic Tree House #2: The Knight at Dawn, they had lots of questions. How were castles built? What was it like to live inside a castle? How did boys train to become knights? Did horses really wear armor? Find out the answers to these questions and more as Jack and Annie track the facts. Filled with up-to-date information, photos, illustrations, and fun tidbits from Jack and Annie, the Magic Tree House Fact Trackers are the perfect way for kids to find out more about the topics they discovered in their favorite Magic Tree House adventures. And teachers can use Fact Trackers alongside their Magic Tree House fiction companions to meet common core text pairing needs. Did you know that there's a Magic Tree House book for every kid? Magic Tree House: Adventures with Jack and Annie, perfect for readers who are just beginning chapter books
Merlin Missions: More challenging adventures for the experienced reader Super Edition: A longer and more dangerous adventure Fact Trackers: Nonfiction companions to your favorite Magic Tree House adventures Have more fun with Jack and Annie at MagicTreeHouse.com!

This collection of 47 tales from Gustav Schwab's seminal anthology of Greek myths stages the illustrious exploits of Heracles, Jason, Odysseus, and a host of heroes. Through the masterful drawings of Clifford Harper and artworks from the leading figures of the Golden Age of Illustration, including Walter Crane, Arthur Rackham, and Virginia...

This beautifully illustrated book takes the reader on a journey through a number of outstanding contemporary houses designed and built across the richly varied and extraordinary European landscape. Philip Jodidio presents his expertise and knowledge on the most profound influences of contemporary residential architecture in this region. This book pairs images of unique architecture and interior design and a comprehensive analysis of each project, set within full-colour photographic portraits that all together reflect the strength of drive and progressive thinking that inspired these designs. Though progressive, the wide range of architects' designs draw heavily on the local vernacular of the buildings of this region. Ordering principles borrow from the building's context and often relate metaphorically to the surrounding natural landscape, connecting the building to its site in a meaningful way. Sustainability and green energy efficiency features are also crucial components in the house design objectives and are seamlessly integrated with the architecture, and these influences are clearly illustrated in this impressive volume.

It seems that almost everyone likes treehouses. Smiles of recognition turn into grins of enthusiasm as more people discover them and dream about making their own private retreats or family play spaces. And it's nice to remind ourselves that treehouses are built into the oldest and most forgiving, living things on earth. Also, history records treehouses as being built as deliberate follies, as challenges for arboreal designers, for merrymaking, and for keeping the spirit of fairy tales alive. But treehouses can also be social places. We will visit many that were built to entertain, to hang out with friends, or as guest houses. Trees come in all types. Master treehouse builders Peter and Judy Nelson, with David Larkin, have embarked on yet another treehouse-discovery expedition across America, this time adding the investigation of backyard playhouses to their agenda. Now, in The Treehouse Book, they reveal their findings, illustrated and described in the most complete volume yet. From casual treeshacks made from discarded lumber to multitiered feats of fancy, they found shelters representing myriad builders—interesting characters ranging from childhood fanatics grown up, to weekend carpenters, to those who want their grandkids to have the best clubhouse on the block. Detailed how-to information, including plans and drawings, is woven with behind-the-scenes tales of each structure's occupants and stunning interior and exterior photographic exploration.

Since the publication of Treehouses of the World, the community of treehouse builders has grown tremendously, and many more innovative treehouses have been built around the world. In New Treehouses of the World, world-renowned treehouse designer and builder Pete Nelson takes readers on an exciting, international tour of more than 35 new treehouses that reveal how treehouses are designed, constructed, and appreciated in a wide array of cultures and settings. Both beautifully photographed and thoughtfully written by Pete Nelson, New Treehouses of the World documents Nelson's travels, discoveries, and epiphanies, and explores the ever-growing new frontier of arboreal architecture. The message that Nelson promotes is simple: As sustainable living issues stand poised to become the most important challenges facing the post-millennial age, the positive power and goodwill that a simple treehouse engenders is of greater importance than ever before.

Provides information on tools, ropes, knots, ladders, and other equipment and supplies needed for building a tree house, and offers five basic designs that can be built.

The #1 bestselling chapter book series of all time celebrates 25 years with new covers and a new, easy-to-use numbering system! Jack and Annie are summoned once again to the fantasy realm of Camelot. There, Merlin the Magician tells them that the Stone of Destiny has been stolen. The answer to its disappearance lies within a haunted castle. With a young magician named Teddy, Jack and Annie take on the challenge in an adventure that takes them to new heights and places they couldn't even imagine! Formerly numbered as Magic Tree House #30, the title of this book is now Magic Tree House Merlin Mission #2: Haunted Castle on Hallows Eve. Did you know that there's a Magic Tree House book for every kid? Magic Tree House: Adventures with Jack and Annie, perfect for readers who are just beginning chapter books
Merlin Missions: More challenging adventures for the experienced reader Super Edition: A longer and more dangerous adventure Fact Trackers: Nonfiction companions to your favorite Magic Tree House adventures Have more fun with Jack and Annie at MagicTreeHouse.com!

"Concrete? That characterless stuff of parking lots or Communist tower blocks, right? Well, yes. And no. Concrete is actually a name applied to a remarkably wide range of building substances, and, when properly handled, is one of the noble materials of contemporary architecture. A kind of "liquid stone" at the outset, it is malleable, durable, and capable of prodigious feats of engineering. This two-volume book highlights the best work done in concrete of recent years. It includes such stars as Zaha Hadid, Herzog & de Meuron, and Steven Holl, but also surprising new architects like the Russians SPEECH, and rising stars of the international scene like Rudy Ricciotti from France, as well as artists such as James Turrell, who turned the famous concrete spiral of Frank Lloyd Wright's Guggenheim in New York into the setting of one of his most remarkable pieces."--Provided by publisher.
