The standard Wide Awake uniform consisted of a full robe or cape, a black glazed hat, and a torch six feet in length to which a large, flaming, pivoting whale-oil container was mounted. Its activities were conducted primarily in the evening and consisted of several night-time torch-lit marches through cities in the northeast and border states.

Now with exclusive bonus content from author David Levithan, the New York Times bestselling mind behind *Every Day* and *Another Day*. An emotional and politically charged novel that's a must-read for turbulent times when the very democratic process itself is called into question and basic rights are at risk. In the not-too-impossible-to-imagine future, a gay Jewish man has been elected president of the United States. Until the governor of one state decides that some election results in his state are invalid, awarding crucial votes to the other candidate, and his fellow party member. Thus is the inspiration for couple Jimmy and Duncan to lend their support to their candidate by deciding to take part in the rallies and protests. Along the way comes an exploration of their relationship, their politics, and their country, and sometimes, as they learn, it's more about the journey than it is about reaching the destination. Only David Levithan could so masterfully and creatively weave together a plot that's both parts political action and reaction, as well as a touching and insightfully-drawn teen love story. For this definitive study no significant source of information concerning Jesse James and his brother Frank has been neglected, and from it emerges resolution of the debated point: "Were the Jameses common criminals or gallant Robin Hoods?"

The alarm sounds. Your feet hit the floor and carry you into another day. But what does that day hold for you? Will you be punching your card at work, catching up on TV at home, and crashing into bed before you rinse and repeat the next day? Or will you dare to dig deep and discover the incredible potential lying dormant within us all? In *Wide Awake*, renowned speaker and church visionary Erwin Raphael McManus challenges us to put an end to all the sleepwalking and settling, for each of us was created by God for a reason. He has called you to live as Jesus did—a heroic life, void of monotony, teeming with danger, adventure, and the unknown. Living wide awake is about realizing that the world desperately needs you to live up to your potential. There is a future that needs to be created, and it is waiting for us all to wake up and get out of bed. The alarm has sounded, and it is time to shake off the slumber. It's time to live, to create, to imagine, to dream . . . *Wide Awake*.

Julie Flygare was on an ambitious path to success, entering law school at age 22, when narcolepsy destroyed the neurological boundaries between dreaming and reality in her brain. She faced terrifying hallucinations, paralysis and excruciating sleepiness - aspects of dream sleep taking place while wide awake. Yet, narcolepsy was a wake-up call for Julie. Her illness propelled her onto a journey she never imagined - from lying paralyzed on her apartment floor to dancing euphorically at a nightclub; from the classrooms of Harvard Medical School to the start line of the Boston Marathon. *Wide Awake and Dreaming* is a revealing first-hand account of dreams gone wrong

with narcolepsy. It's the brave story of one woman trampling over barriers and finding light in the darkest of circumstances.

A fourth-generation insomniac, Patricia Morrisroe decided that the only way she'd ever conquer her lifelong sleep disorder was by becoming an expert on the subject. So, armed with half a century of personal experience and a journalist's curiosity, she set off to explore one of life's greatest mysteries: sleep. *Wide Awake* is the eye-opening account of Morrisroe's quest—a compelling memoir that blends science, culture, and business to tell the story of why she—and forty million other Americans—can't sleep at night. Over the course of three years of research and reporting, Morrisroe talks to sleep doctors, drug makers, psychiatrists, anthropologists, hypnotherapists, “wake experts,” mattress salesmen, a magician, an astronaut, and even a reindeer herder. She spends an uncomfortable night wired up in a sleep lab. She tries “sleep restriction” and “brain music therapy.” She buys a high-end sound machine, custom-made ear plugs, and a “quiet” house in the country to escape her noisy neighbors in the city. She attends a continuing medical education course in Las Vegas, where she discovers that doctors are among the most sleep-deprived people in the country. She travels to Sonoma, California, where she attends a Dream Ball costumed as her “dream self.” To fulfill a childhood fantasy, she celebrates Christmas Eve two hundred miles north of the Arctic Circle, in the famed Icehotel tossing and turning on an ice bed. Finally, after traveling the globe, she finds the answer to her insomnia right around the corner from her apartment
